Dealers to all kinds of

Meats!

City Customers waited on daily for orders and meat delivered free to any part of the city

Wholesale orders promptly attended to. Special terms to hotels and boarding-houses.

THE TOWN COUNCIL IN SENIOR LAST NIGHT.

They Resolved to Deal Promptly With the Sewerage Question - The First Step Forward - Organizing a Committee - A Full Tax Imposed - A Tax Rate to be Struck - No More Electric Lights This Year - Free Rent for Factories, Etc., etc.

There were present at the meeting of Council last night, the Mayor and Messrs. McRae, Cocking and Orr, the other members of the Council being absent in the East with the exhibition car.

A number of accounts were rendered.

NEW TAXES.

Mr. Davis, as returning officer, gave in his report of the voting on the sewerage by-law and the by-law received the same.

A by-law (No. 131) was read three times and passed imposing a poll tax of \$2 (in lieu of license) on all persons not otherwise taxed, failure to pay being punished by a fine not exceeding \$20 and costs of 14 days imprisonment.

Mr. Orr gave notice that he had no intention of dropping his proposed by-law for the expropriation of land for lanes, which was more necessary than ever if the sewerage was to be placed in the lanes.

A letter was read from Mr. North, of the Townsite Trust, acknowledging the receipt of the Council's resolution in reference to the transfer of land in sec. 15 and promising attention to the request.

A communication was read from Mr. Wm. Pearce, of the Dominion Land Board, acknowledging receipt of the Council's resolution in reference to the Island Park, stating that he had forwarded it to the Minister of the Interior with his recommendation, and intimating that the only lands in the Bow River now available are those lying between the Factory and Waterbury Roads of sec. 14.

AMOUNTS PAID.

The Finance Committee recommended that the Council order payment of the following accounts:

Herald Publishing Co. \$23.00
Thompson Bros. 1.00
R. Barker 1.00
James Walker 1.75
G. A. Johnson 2.00
W. McCallister, fencing, etc. at the 11.67
J. McMillan 10.00
Domestic Illustrated, 2,000 200.00

Mr. Davis.

The Mayor intimated that an early meeting of the Finance Committee would be held - probably today - to strike a 15 cent rate.

PAINTING.

Coun. Cocking, while not asking for all the fire expenditures made earlier this year, asked that \$20 worth of painting be done at the fire hall; and it was agreed, also, that the pump tower be painted.

SEWERAGE MATTERS.

The Mayor offered some remarks on the sewerage question. He said the citizens, in voting the by-law, had acted wisely, promptly and with great consideration, in the matter. The Council would have liked, and he personally had wished, to have been able to place the question in a clearer and more satisfactory shape before the citizens before voting, and he regretted that circumstances which he could not control prevented this being done. There was in consequence a double obligation imposed on the Council to do its utmost to satisfy the citizens and to make the sewerage system as good as possible.

He said that the citizens had entrusted them with a great obligation. For his part he would do all in his power to carry the work through to a satisfactory issue and make a complete good work.

Mr. Orr, while quite in accord with the wish of the citizens, thought the Council should do all in their power legitimately to see that the material for the works was secured at the lowest possible price, and asked whether the Mayor had been furnished with the price lists of pipes.

The Mayor said he had, and read from Mr. Kennedy's report (already published) his own acquiescent endorsement of the pipes of the Pioneer Sewer Pipe Co. of New Brighton, Penn., and also the fact that these pipes had been in Calgary. He would like to see the Council take some action against the carriers on the works, and appoint a committee to examine the plans carefully and ascertain what quantity of pipes would be necessary to order at the lowest possible price.

Mr. Davis.

Don't let anything go out of the hands of the Calgary district from making this year's exhibition far and away the best they have ever held. The Mayor delegates from England, Ireland, Scotland and Wales may be here at that time and we should be prepared to do ourselves full justice in their eyes.

An Accident.

This morning, between 9 and 10 o'clock, breakfast Hentley was slightly injured on the hip and shoulder in the Calgary road while climbing through between the cars of a freight train when they were coming together. He was taken to the Medicine Hat hospital on the freight. It is feared that he will be kept in a hospital for a week or two.

The Field Trials.

The dogs which left here to take part in the field trials in Winnipeg were Mr. W. H. Hogg's "Dash B" and Mr. H. B. McCallister's "Buddy".

The field trials for Calgary are fixed for Sep. 20 and 21 at a place near Calgary as possible. Mr. Thomas Johnson, of Winnipeg, who gives as first prize, being the judge. Entries close Sep. 20 and must be addressed to Mr. W. H. Hogg, Secretary-Treasurer. There is a second prize of \$20 cash, and a consolation prize of \$10 cash. The fee is \$1 per dog for members, \$2 for non-members. Dogs will be drawn for the non-members of Sep. 22.

bearing objections to his plans and fully explaining them. If his plans had been adopted in full this expense would not be necessary, but since we want to change these plans in some respects we require him here and must pay his expenses. His Worship read two letters he had just received from Mr. Kennedy in relation to details of his plans, such as the flagging tanks, etc. Mr. Kennedy favored the work being done by the day under competent supervision.

Mr. Orr submitted a letter and testimonials as to the merits of their paper from the Hamilton and Toronto Sewer Co. of Hamilton, Ont., with their price list. He would like to see acquiescent users of other places, such as St. John's P.Q., etc.

Mr. Cocking and that if anything was to be done they must not quickly. There were only a few councillors present to form committees. If the Council would give him (or any other member of the Council) the plans, he would get a competent party in town to go over them and he would bring in a report this week. He was willing to make out an estimate of the pipes required, and in reference to special pipes, etc.

The Mayor was willing to accept Coun. Cocking's suggestion. He was afraid there was not time to carry on correspondence with all the people suggested by Mr. Orr, but he said Mr. Orr stated he would do the correspondence in his hand.

Mr. Cocking, in reply to Mr. Orr—who had said the pipes of Canadian makers were in use in all the large cities of Canada—stated that he had learned that every day from Winnipeg people that in that city Canadian sewerage pipes had been appointed and U.S. pipes substituted.

The Mayor announced the whole Council a committee to meet in Mr. Davis' office at some convenient hour today and Mr. Cocking was requested to get the details suggested.

Coun. Cocking thought it was time to secure the services of a local engineer to attend to the details of the work, after the plans had been adopted and Mr. Kennedy's advice received, but the Mayor thought this had better be deferred until after seeing Mr. Kennedy, and the subject dropped.

Mr. Orr asked if tenders would be asked for the sewerage alterations. The Mayor replied: "Certainly."

THE PARK AND C.P.R. ROADS.

On motion of Coun. McRae, seconded by Coun. Cocking, the proposed transfer of the park to the C.P.R. was ordered to be forwarded to the Minister of the Interior.

THE CEMETERY.

A discussion was started in regard to the cemetery by the Mayor suggesting that the cemetery should be given to the city for use for immediate use. He referred to a suggestion by Mr. William Pearce that before asking for tenders for laying out the grounds a contour map should be made, from which landscape engineers anywhere could make drawings and tenders for the work, but the feeling of the Council and the Mayor's own opinion was that nothing should be done until the hands of the private companies which would be incorporated. All agreed that all that was necessary to do with the grounds at present was to select a limited space for early burials, with the understanding that the bodies would be removed when the cemetery plan was finally decided upon. A resolution was passed authorizing the Mayor to make the selection for immediate use. It was also decided to insert in the city newspapers, requesting the citizens to meet the Town Council in the Town Hall on Friday at 4 p.m. to decide upon arrangements to be made for forming an incorporated company under "The Cemetery Ordinance," to take over the cemetery from the Town.

NO MORE ELECTRIC LIGHTS AT PRESENT.

Mr. Orr brought up the subject of additional electric lights and wanted to know what the Fire, Water and Light Committee had done in reference to the recent Mr. Orr on the subject. Coun. Cocking, with the utmost frankness, informed Mr. Orr that the Town is now paying \$10 a month for lights and he said that he would like to see the year added to a single light. Replying to Mr. Orr, who said the people east of the city were receiving nothing for their taxes, he answered that the town was building a sidewalk as far as it could in that direction, and anyway if an electric light was so desirable on the Market trail near the "Silver bridge," why had not Coun. Orr, when he worked on the map the points where lights should be placed, added this and the other lights he was now urging?

AN INSURANCE MATTER.

On motion of Coun. Orr, the rates of insurance on the Calgary house in the cemetery grounds was ordered to be transferred to the city, with the understanding that in case the place were burned down Mr. Gary should be re-indemnified for the loss of the use of the house.

ROADS, BRIDGES, ETC.

A placed was exhibited (one of 100 which had been printed) advertising free sites and exemption from taxation for farmers who would erect and maintain a "farm" of fifty of these sites with the exhibition car, and it was left with the Mayor to distribute the same, and to announce for that purpose with the Council and the citizens.

C. P. H. authorities to have them placed at stations. It was explained that private parties stood ready to give free sites and the excavations would be considered on their merits.

A resolution was adopted, that the Mayor should request our councillors now in Toronto to see every effort to secure the visit of as many of the British Empire delegates as possible to Alberta. It was stated that the councillors would meet the delegates at the Toronto exhibition this week.

The Council then adjourned to meet today, at some hour, at a committee of the whole to discuss sewerage plans, etc.

TELEGRAMS.

The Dominion Meeting.
(Special to The Herald.)

Dominion, Sept. 10.—The Sept. meeting adjourned yesterday. The great Yorkshire handspan plate was won by Silver Spur. Hantesson won the Champagne stakes.

Remedy for the St. Louis.

Crop Failure in Quebec.

(Special to The Herald.)

Montreal, Sept. 10.—The Progressive Party conference previous reports of the failure of crops in that district. It says the prospects were never so discouraging.

Mr. John McHugh Arrives.

Ottawa, Sept. 6.—Mr. John Macdonald returned to the city today on a long voyage with Lady Macdonald and Miss Macdonald. All the Ministers were in the city were at the station to meet him. The Premier looks very much the better of his long vacation on the St. Lawrence. There is a quiet meeting this afternoon.

French Bohemian Attraction.

(Special to The Herald.)

Montreal, Sept. 10.—The striking of the recent defeat of Egli's? The Bohemians show that infatuate were roasted alive, women killed and horribly mutilated by negroes, and victims of the same.

Suppressing a Strike's Riot.

(Special to The Herald.)

London, Sept. 10.—The striking dockers, coal porters, sailors and firemen at Southampton prevented trains from leaving the station and obstructed the dock gates. The military cleared the trucks, though molested by the strikers. The Mayor read the Riot Act and the crowd were charged upon with fixed bayonets by the military. Many rioters were wounded and soldiers hurt with stones. The town is greatly excited. Further trouble is expected.

Brought for the North.

Later reports of tonight for Edmonton and the north have been arriving at Calgary. Much of this has started for the north, and the north-bound trains are at least three or four hours late to go.
